

SAFETY ISSUES

1. Numbers and letters in front of the building, on side of steps, “247” and “Fourth Street” should be painted in red or black to stand out more from the concrete.
2. Last names only should be used on roster list of residents at front door buzzer.
3. A sign should be posted on the pillars at bottom of the driveway into the garage reminding residents to “Wait Here Until Garage Door Fully Closes.”
4. Consider emergency evacuation maps for each floor (for visitors in the event of an emergency and for emergency response personnel).
5. Consider security alarm sensors on ground floor glass windows in back of the building, Unit 101, and Cuckoos Nest.
6. Arrange a meeting for residents to watch a one-hour Oakland PD safety video.
